☑ They are cost efficient

> ✓ **맞습니다**
>
> Perfect! Otherwise all the software and hardware costs will be handled by your organization.

☑ Provides easy on-demand scalable solution

> ✓ **맞습니다**
>
> Nice going! Cloud solutions are really flexible for scaling up.

☐ User owns and controls data governance.

4. About data lakes it's only true that:

1 / 1점

○ Handles only processed data

○ Aggregates data from a single source only.

◉ Can handle both structured and unstructured data.

○ Handles only structured data.

> ✓ **맞습니다**
>
> That's right! Data lakes are really flexible in the type of data they can handle.
