6. TensorFlow Extended (TFX) is an end-to-end platform for deploying production ML pipelines.

1 / 1점

○ No

◉ Yes

✓ **맞습니다**

You got it right! TFX is used to create and manage a production line.

7. Production machine learning combines which key disciplines?

1 / 1점

☐ Software testing

☐ Feature selection and engineering

☑ Modern software development

✓ **맞습니다**

Keep it up! Well-designed software that adheres to best practices is key for the success of a production grade machine learning system.

☑ Machine learning development

✓ **맞습니다**

Nice going! ML Development focuses on specific issues related with data and model predictions quality.
